Education

2018-08 - 2020-08

Information Technology, T.S.U. in Multiplatform Software Development

Universidad Tecnologica de Durango, Durango

2020-08 - 2022-06

Information Technology, Software Development and Management Engineering

Universidad Tecnologica de Durango, Durango

Internships

2020-05 - 2020-08

Lead Developer

Sirre Consulting

This project was created for a consulting company named SIrre during an internship in which we developed a CRUD application that replaced their employee and customer management system as well as provided additional features such as Google Login, in addition to an appointments and notes section. This application was developed using Node.js, Express, and MongoDB in the backend and as for the frontend we used Bootstrap and Handlebars as a logic-less templating engine to dynamically render HTML pages.

2022-02 - 2022-05

Fullstack JS Trainee

Improving

I attended this training program for my university internship program in which I attended training courses to build an understanding of processes, techniques, and industry. Within this training, I distinguished myself by learning new materials, processes, and programs quickly. I also actively participated in the training, working closely with supervisors and coworkers and asking appropriate questions.
